Executive Summary

I'm a third-year B.Tech student specializing in Artificial Intelligence and Data Science, seeking an internship opportunity to enhance my practical skills, gain hands-on experience in AI and data-driven technologies, and contribute to impactful real-world projects while continuing to grow as a learner and problem-solver.

Technical Skills

- Python
- SQL
- Data Science
- Java
- Machine Learning
- Deep learning

Certifications

Python for Data Science – NPTEL

Internship

AI Internship Program – Hunar Intern

Weather Report: Developed machine learning models using scikit-learn to forecast key weather parameters (temperature, humidity, wind speed), Applied regression and classification techniques within scikit-learn to forecast continuous temperature and categorical events

Machine Learning - CodeAlpha

I built machine learning models using Random Forest for disease prediction and credit scoring. It includes data preprocessing, model training, evaluation, and prediction for easy reuse and deployment.

Education

Nehru Institute of Engineering and Technology, Coimbatore

B.Tech (Artificial Intelligence & Data Science) – 2027

Workshops

- Participated in DSA Workshop at Livewire, Sundarapuram, Coimbatore
- Attended National-level Workshop sponsored by DHR-ICMR on “Integrating MRI and AI: Towards Personalized Medicine in Neurology”

Declaration

I hereby declare that all the information provided above is true to the best of my knowledge and belief.
