

SRI HARI V

JUNIOR JAVA DEVELOPER

Trichy | 8300424990 | vsrihari1811@gmail.com | www.linkedin.com/in/srihariv1811/

CARRER OBJECTIVE

"To obtain a challenging position in a reputable organization where I can utilize my technical skills, enhance my learning, and contribute effectively to the team's success."

TECHNICAL SKILLS

- Core Java
- Core Python
- MySQL
- HTML
- JasperSoft Report Designing
- Technical Support

INTERNSHIP

Junior Java Developer, Sastham Tech, Trichy

May 2025 - Nov 2025

Summary

- **Designed and implemented relational database tables** based on business requirements and UI mockups, ensuring proper normalization and scalable architecture.
- **Created indexes and defined constraints** to enforce business logic, enhance data integrity, and optimize query performance.
- **Developed RESTful APIs** for complete CRUD operations using the Spring Boot framework, enabling seamless backend integration and data management.Streamlined manufacturing processes, reducing production costs by 10%.
- **Built dynamic and parameterised reports** using JasperReports for daily, monthly, invoice, and summary reporting, aligned with business analytics needs.
- **Technical Support & Issue Resolution** Provided technical support by identifying and documenting user issues, facilitating efficient debugging and resolution through collaboration with the development team.
- **Conducted functional and unit testing** to validate API performance, ensure data accuracy, and maintain code quality throughout the development lifecycle.

PROJECTS

School Parent API :

Language : Java 8, MySQL 8, Spring Boot

- Created a backend API for applying leave request and cancelling a leave request.
- Created a backend API for updating a parent's mobile and email address.

Jaspersoft Report :

- Developed custom Jrxml report templates for ID cards, fee reports, attendance tracking, and financial summaries using JasperReports.
- Integrated MySQL queries and Spring Boot APIs to generate dynamic, parameterized, and real-time reporting outputs.
- Applied conditional formatting, sub-reports, calculated fields, and image components to enhance clarity and meet business requirements.
- Delivered optimized, accurate, and print-ready PDF/Excel reports aligned with organizational standards and performance needs.

Image Morphing Detection(FinalYear Project)

Language : Java, Technologies Used: OpenCV, MySQL

Role: Database Management

- Image morphing detection using block extraction works by dividing an image into blocks and analyzing feature inconsistencies between them to identify potential manipulation or morphing seams.

EDUCATION

- B.Tech IT (2020-24) - K.Ramakrishnan College of Engineering,Trichy.
- HSC (2019-2020) - RSK. Higher Secondary School,Trichy.
- SSLC (2017-2018) - RSK. Higher Secondary School,Trichy.

ADDITIONAL INFORMATION

- **Languages:** English, Tamil.
- **Certifications:** Core Python Certification completed in SYSTECH,Trichy (Duration: 2 Months).
- **Awards/Activities:** I have attended and completed a value-added course on mobile application development that was conducted by **Vel Technology Private Limited**.
